

REFERENCE LETTER

With this letter we would like to give SEC reference for welding works carried out by SEC Norge and SEC Pomorze teams during:

Johan Castberg FPSO Project

Supporting fabrication of topsides modules for Johan Castberg FPSO vessel on the Crist Offshore yard in Gdynia, Poland within period of 07.07 – 30.10.2019.

The scope of works was covering activities in field of welding 136 and 138/136 methods in range of FM2 and FM5 filler material groups.

The works were carried out with maintenance of high quality and safety standards which confirms high qualification and professionalism of SEC employees, as well as SEC focus on good cooperation practice and fulfillment of Client's requirements.
